

Non-Government Reform Support Workplan

2021

Independent Schools Victoria

Non – Government Reform Support Fund

Independent Schools Victoria – Workplan 2021

Summary of Workplan for 2021

In 2021, Independent Schools Victoria (ISV) will continue to focus on the three Commonwealth Priorities:

1. quality assurance, moderation and support for the continued improvement of the Nationally Consistent Collection of Data on School Students with Disability
2. the transition of NAPLAN to online delivery
3. improving governance and financial management practices of non-government schools.

ISV will also work with the Victorian government in the implementation of the reforms outlined in the bilateral agreement. This work will involve:

- Participation in the School Policy and Funding Advisory Council (SPFAC) and its working groups
- Sharing of data and information to assist with monitoring Victoria's state-wide performance
- Possible cross-sectoral school engagement on occasions.

ISV's vision is to have a strong Independent education sector demonstrating best practice, providing excellent outcomes for students and choice for families.

To realise our vision, we:

- support quality education
- advocate for excellence in education
- champion Member Schools
- protect the rights of parents to choose where and how their children are educated.

ISV currently receives funding under a range of Victorian Government Programs. In 2021, these include:

- the Breaking the Link Program for Non-Government Schools: \$538,577 has notionally been allocated for 2021 to support initiatives that reduce the impact of economic, cultural and locational disadvantage for Victorian students
- the Happy, Healthy and Resilient Kids Program for Non-Government Schools: \$1,956,141 has notionally been allocated in 2021 to support the physical and emotional wellbeing of Victorian students. This includes the provision of professional services to students with special needs, such as visiting teacher services, psychology services and speech pathology services, and initiatives that support student resiliency
- the Learning for Life Program for Non-Government Schools: \$2,154,309 has notionally been allocated in 2021 to support initiatives that support students to achieve excellence in educational outcomes.

While funding must be allocated to Victorian Independent schools under each of these three programs, where appropriate, ISV has the ability to transfer funds between the programs, to target support where it is most needed in schools.

When comparing this workplan to the workplan from previous years, the Happy, Healthy and Resilient Kids Program is equivalent to the State Support Services and Developing Resiliency

Programs from 2020, while 2020's Facilitation Program for School Improvement has been split into the Breaking the Link and Learning for Life Programs in 2021.

This funding is not included in this Workplan. ISV will also, when necessary, use Member resources to supplement the activities listed in this Workplan.

ISV has a School Improvement Team consisting of a number of Principal Consultants. The team consists of former Principals and senior educators and works directly in schools to support improvement initiatives. The team will continue to provide support to schools in 2021 and this will include guidance and advice to schools in relation to the three Commonwealth Priorities. The team will also provide support for schools in key initiatives such as:

- Leadership development
- Support for beginning teachers
- Targeted improvement initiatives.

Some of the projects outlined below will involve cross-sectoral collaboration. Where this occurs, costs will be shared equitably with the Victorian Department of Education and Training and the Catholic Education Commission of Victoria (where appropriate).

1. Quality assurance, moderation and support for the continued improvement of the Nationally Consistent Collection of Data on School Students with Disability:

ISV will use Reform Support Funds to support the following activities:

- attend cross-sectoral, state and national NCCD workshops
- hold discussions and conduct moderation at network meetings within the sector,
- liaise with other independent school associations to facilitate consistency
- provide help desk support for schools
- analyse previous years' NCCD data and develop benchmarked guidelines for schools
- facilitate professional learning sessions for school staff
- provide consultants from both health and educational backgrounds to work with schools
- develop a series of intervention strategy documents for various disabilities to support member schools.

Evaluation Strategies:

- feedback from schools about the value of meetings with health/educational consultants
- count of all meetings attended
- number of professional learning sessions
- number of intervention strategy documents prepared and number of times the documents are accessed by schools.

2. Transition of NAPLAN to online delivery:

ISV works closely with the Victorian Curriculum and Assessment Authority (VCAA) and the other school sectors in the transition of NAPLAN to online delivery. Reform Support Funds will be used to subsidise the costs of ISV staff time and travel to meetings and schools, as well providing general advice and support for schools.

ISV will also track the performance of Victorian independent schools so that future improvement activities can be developed to support schools. The team of School Improvement Advisors will support schools with any proposed improvement activities.

Evaluation Strategies:

- data capture of support provided to schools
- follow-up survey of the value of this support.

3. Improved governance and financial management practices:

ISV will offer training through its Development Centre for school leaders and governing body members. These training sessions will be offered at different times (i.e. after hours and on weekends) and in different formats (i.e. face to face as well as via the use of video technology) to enable maximum attendance. In particular, ISV will facilitate two weekend residential programs for governing body members and school leaders. Topics include expectations and obligations under Australian company law, board performance, risk management, funding processes, financial responsibilities, delineation between strategic and operational matters, and many more.

ISV will provide a governance 'help desk', where schools are able to seek information and guidance about governance related issues.

ISV will continue to develop and publish resources to assist schools with financial management and benchmarking. ISV will also provide tools to enable schools to analyse and benchmark their financial and performance data.

ISV will use the principles of Process Management for online delivery of material to assist schools in improving governance and financial management.

Reform Support Funds will be used to support:

- the delivery of governance workshops and briefings
- the provision of a governance help desk
- the development and publication of financial benchmarking resources
- the development of online Process Management material.

ISV will also use Reform Support Funds to develop and deliver the following:

- Principals' Executive Network
- New Business Managers' Program
- Professional development on ISV's benchmarking tool (isAnalyse)
- Idea into Action program.

Evaluation Strategies:

- data capture of support provided to schools
- follow-up surveys of the value of this support
- feedback from schools on the usefulness of the materials and workshops.

4. Quality Teaching

In line with the Australian Government's focus on quality teaching, ISV will continue a project that establishes a mentoring relationship between beginning teachers and experienced teachers (fellows). The fellows work with the beginning teacher and their in-school mentor to provide professional support and advice.

Participating beginning teachers also receive targeted professional learning and networking opportunities.

Evaluation Strategies:

- short-term follow-up surveys of participants' satisfaction

- long-term evaluation of participants' attitudes to teaching and professional destinations.

ISV will also use the Reform Support Fund to support the following programs and projects:

- Agile Principals Project
- Policy templates
- Southern Cross – STEM focus.

5. Boosting Literacy and Numeracy

In line with the Australian Government's focus on literacy and numeracy, and to better understand the plateauing of Australia's performance on national and international assessments, ISV will build on its recent research into NAPLAN performance and implement a pilot program with schools to develop a predictive analysis platform. The pilot will see ISV working with schools to align various database systems and reporting mechanisms to bring together NAPLAN, school-level progressive achievement data on literacy and numeracy, and student enrolment and wellbeing data to enable schools to better predict student performance and better identify appropriate intervention strategies around literacy and numeracy achievement.

ISV will also develop online training modules for teaching staff and school leaders and its own School Improvement Team to make the most of the platform.

6. Support for the bilateral agreement between Victoria and the Commonwealth

ISV will work cooperatively with the Victorian government in the implementation of the reforms outlined in the bilateral agreement. At a high level, this will involve ongoing participation in SPFAC and its working groups as well as data and information sharing arrangements.

In relation to some of the specific actions listed in the bilateral agreement (i.e. actions 1, 5 and 11), ISV will participate in cross-sectoral working groups so that the various initiatives can be achieved.

Actions items 12, 13, 15 and 16 of the bilateral agreement are addressed in other sections of this workplan.

Summary of budget

Project	Activities	Reform support funding	Funding from other sources	Total funding
NCCD	Staff costs/Contractors	\$278,000	\$0	\$278,000
	Travel	\$15,000	\$0	\$15,000
	Professional Learning sessions	\$67,000	\$0	\$67,000

Online delivery of the National Assessment program	<p>1. General support</p> <p>a. In Victoria, the Victorian Curriculum and Assessment Authority (VCAA) is directly responsible for managing the process of moving to NAPLAN online. This includes acting as the ‘help desk’ for schools from all sectors.</p> <p>b. ISV will have staff members fully involved in this priority area. ISV has membership of the VCAA Steering Committee and OAWG’s Project Managers’ Working Group. Schools are strongly encouraged to participate in NAPLAN online. ISV directs all school queries directly to the VCAA to ensure consistent communication.</p>	<p>Reform support funding: \$250,000</p> <p>Other funding: \$0</p> <p><i>This table is for all of the activities in this project</i></p> <table border="1" data-bbox="909 624 1303 810"> <tr> <td>Staff costs/Contractors</td> <td>\$180,000</td> </tr> <tr> <td>Travel</td> <td>\$10,000</td> </tr> <tr> <td>Research</td> <td>\$60,000</td> </tr> <tr> <td></td> <td>\$250,000</td> </tr> </table>	Staff costs/Contractors	\$180,000	Travel	\$10,000	Research	\$60,000		\$250,000	<p>Activity 1</p> <p>Increasing the number of Victorian independent schools involved in NAPLAN online at an appropriate stage in the transition</p>	<p>Activity 1</p> <p>Given the current position of the NAPLAN online project, it is difficult to set targets for 2021.</p>
Staff costs/Contractors	\$180,000											
Travel	\$10,000											
Research	\$60,000											
	\$250,000											

	<p>2. Data analysis and targeted support to schools</p> <p>a. ISV will analyse schools' NAPLAN performance for 2021 with the assistance of the VCAA NAPLAN Data Service.</p> <p>b. This, combined with ISV's analysis of NAPLAN data, will inform the provision of future targeted assistance for schools in improving teaching strategies and literacy and numeracy outcomes. ISV's team of Principal Consultants will work directly with schools in implementing improvement strategies.</p>		<p>Activity 2</p> <p>Identification of the extent to which NAPLAN online alters students' NAPLAN results</p>	<p>Activity 2</p> <p>Short term:</p> <p>ISV will analyse the NAPLAN data of all Victorian Independent schools that participate in NAPLAN online in 2021.</p> <p>Long term:</p> <p>While having an immediate impact on the implementation of NAPLAN Online, ISV believes that this project will have a broader and longer-term benefit for schools once all schools have moved to online testing.</p> <p>ISV will be able to develop a range of targeted improvement strategies, informed in part by NAPLAN analysis.</p>

Literacy and Numeracy Predictive analytics Platform	In line with the Australian Government's focus on literacy and numeracy, and to better understand the plateauing of Australia's performance on national and international assessments, ISV will develop and pilot an analysis platform for independent schools that combines NAPLAN and progressive achievement data alongside wellbeing data to enable schools to better predict student performance and better identify appropriate intervention strategies. Training will also be developed to ensure internal staff and teachers and school leaders can make the most of the platform.	Reform support funding: \$180,000 Other funding: \$0 <table border="1" data-bbox="873 470 1272 654"> <tr> <td>Staff costs/Contractors</td> <td>\$100,000</td> </tr> <tr> <td>Qlik integration</td> <td>\$30,000</td> </tr> <tr> <td>Online training</td> <td>\$50,000</td> </tr> <tr> <td>Total</td> <td>\$180,000</td> </tr> </table> This work is on top of cross-sectoral work that ISV will undertake in 2021 with Vic DET and CECV to assess how Victorian students are able to meet the Victorian Government's Education State targets.	Staff costs/Contractors	\$100,000	Qlik integration	\$30,000	Online training	\$50,000	Total	\$180,000	The pilot project will see ISV work with a small number of pilot schools to develop a reporting application for improved analysis within schools concerning literacy and numeracy that puts analysis of school-level records at the fingertips of teachers. ISV will also develop an online training module for using the system.	The implementation of the pilot program Development of the predictive analytics platform for internal and external use The Development of an online training module on data literacy for the use of the platform.
Staff costs/Contractors	\$100,000											
Qlik integration	\$30,000											
Online training	\$50,000											
Total	\$180,000											

Victoria's Bilateral Agreement Initiatives

Reform Direction	Actions	ISV's activities
<p>Reform Direction A - Support students, student learning and achievement</p>	<p>1. Strengthen teacher practice in Victoria by establishing a Digital Assessment Library, an online resource that will develop and make available new digital student assessment tools and teacher resources to improve student learning assessment.</p> <p>5. Improve educational pathways for students expelled from school through developing and implementing cross-sectoral guidelines to support the transition of students expelled from a school into a new education, training or employment setting.</p>	<p>1. ISV is currently represented on various working groups and will continue to work with the Department of Education and Training (DET), the Catholic sector and the Victorian Curriculum and Assessment Authority (VCAA) in the implementation of the Digital Assessment Library.</p> <p>5. ISV will participate in working groups with DET and the Catholic sector and will contribute to the development of these guidelines.</p>
<p>Reform Direction B – Support teaching, school leadership and school improvement</p>	<p>11. The Commonwealth will work with Victoria to address identified teacher workforce supply needs (particularly in the areas of Maths and Science) including the development of a national teacher workforce strategy reflecting respective areas of responsibility.</p> <p>12. Provide high-quality professional learning and training to teachers and school leaders to support school improvement in areas of identified need.</p> <p>13. Improve board governance in non-government schools through training and resource support.</p>	<p>11. ISV will participate in working groups with the Commonwealth, the Victorian DET and the Catholic sector and will contribute to the development of this strategy.</p> <p>12. ISV's work in relation to this activity is explained on pages 17 to 21 of this workplan.</p> <p>13. ISV's work in relation to this activity is explained on pages 14 to 16 of this workplan.</p>

	15. Increase the number of independent schools trained in the Process and Performance Management (PPM) approach through the Southern Cross Project in order to use the tools and techniques to improve student outcomes in areas of need, as identified by individual schools.	15. ISV's work in relation to this activity is explained on page 23 of this workplan.
Reform Direction C – Enhancing the national evidence base	16. Support the transition to the Nationally Consistent Collection of Data on School Students with Disability (NCCD) through quality assurance and moderation of NCCD data.	16. ISV's work in relation to this activity is explained on pages 7 to 11 of this workplan.
